WATCHES

"I had an idea to create a mixture of two of my favourite collections that are very popular among our customers, Antella and Belluno.

Antella is known for a mix of baguette cubic zirconia and Belluno is set with round cubic zirconia in various sizes. When combining these two collections I created the Ivrea collection.

I played around arranging stones in different sizes and colours, positioning the stones on different designs and ended up with so many fantastic styles. It was a fun process to deconstruct pieces from the collections and create something new. I chose very vibrant and bright colours to give the pieces the attention they deserve."

IVREA

PLAYFUL, ENCHANTING & FULL OF LIFE!

The Ivrea collection is an ode to our Antella and Belluno collections which have been very popular among our dear customers. Ivrea was born when we sought inspiration within our most popular collections, Antella and Belluno. From this divine union, a perfect mixture of the two styles blending seamlessly with Italian elegance was created.

The glamorous designs in this collection combine round and baguette high-quality cubic zirconia in various sizes and colours! Playing with size and shape resulted in interesting play on light, reflections, and endearing angles. All the beautiful Ivrea styles are dressed in enchanting new colour combinations.

All styles are available in 925 sterling silver with white or multi-colour cubic zirconia with 18k gold plating or with white cubic zirconia with rhodium plating for that extra surface shine.

PONZA

CAPTURING THE MAJESTIC WAVES OF THE SEA

The Ponza collection is inspired by our ocean. The majestic waves of the sea have been translated into this stunning collection filled with sparkling cubic zirconia and freshwater pearls in all sizes. The square profile of the stones contrasts with the wavy movement of the design and the lustrous pearls demand even more attention.

Freshwater pearls are durable real pearls and if properly cared for, they will withstand the tests of time.

"I am so fortunate that I live by the ocean and it connects me with my roots from my home country, Iceland. The sounds of the waves calm me down and I have always been a huge fan of the ocean and its power. It gives me a sense of calmness. I have always loved the movement of the sea and wanted to design pieces that capture this wavy movement but still have a geometric profile that I am so fond of. This is how the Ponza came to life."

PONZA

The collection is available in 925 sterling silver with white cubic zirconia and freshwater pearls with 18k gold plating or rhodium plating.

ATTENTION WATCH LOVERS!

Introducing a new style, Francesca, and our existing style Valeria with pink and blue sunray dials! We welcome them to our watch assortment that people have lovingly embraced over the last few months and we can only be so excited and grateful.

FRANCESCA

A NURSE WATCH WITH AN EDGE

We took a completely new direction with Francesca. This one is a nurse watch with an edge. As the world is not nearly done with square watches we wanted to create a modern nurse watch with an engravable brooch. Engrave a name, a special date or where ever your mind takes you to make it extra special.

Francesca watches are available in two colours— silver stainless steel with an elegant silver sunray dial or gold stainless steel with a beautiful mother-of-pearl dial.
